

Second Grade Summer Math Assignment

The following math assignment is for the children entering second grade in September 2020. These skills are a review of concepts that were taught and practiced over the course of the year in first grade. The summer math assignment consists of going into your IXL account for Grade 1 and working on the following math skill categories. Please dedicate 30 minutes to practice time each week.

Login: <https://www.ixl.com/signin/stbolh>

Your username is just your first name.

Please contact Ms. Bentsen if you need your password.

C. Addition Skill Builders

I. Subtraction Strategies
