

Grade 7 Mathematics Curriculum Map

Based Upon the Textbook: *Sadlier-Oxford: Fundamentals of Algebra*

Subject to Change

Trimester	Month	Subject/Unit of Study
1	September	<u>Chapter 1</u> Integers <u>Chapter 2</u> Expressions and Equations
	October	<u>Chapter 3</u> Inequalities <u>Chapter 4</u> Rational Numbers: Decimals
	November	<u>Chapter 5</u> Rational Numbers: Fractions <u>Chapter 6</u> Ratio and Proportion <u>Chapter 7</u> Percent and Consumer Applications

2	November	<u>Chapter 7</u> Percent and Consumer Applications
	December	<u>Chapter 7</u> Percent and Consumer Applications <u>Chapter 8</u> Data Analysis and Statistics
	January	<u>Chapter 9</u> Two-Dimensional Geometry
	February	<u>Chapter 10</u> Two-Dimensional Geometry and Measurement Applications
	March	<u>Chapter 10</u> Two-Dimensional Geometry and Measurement Applications <u>Chapter 11</u> Three-Dimensional Geometry
3	March	<u>Chapter 11</u> Three-Dimensional Geometry <u>Chapter 12</u> Probability
	April	<u>Chapter 12</u> Probability

		<u>Chapter 13</u> Patterns, Relations, and Functions
	May	<u>Chapter 13</u> Patterns, Relations, and Functions <u>Chapter 14</u> Polynomials, Equations, and Inequalities
	May-June	<u>Chapter 14</u> Polynomials, Equations, and Inequalities
